September 30, 1981

Dear Art,

Once again you have "wowed" us all!! You come with so much and leave us with so much. I truly appreciate you more than you'll ever know. All the students speak so warmly and so appreciatively of your presentations--and, about you as a person. That means a lot to me because I think you are terrific!

You truly deserve the "Grace Note" award because you accept so many important assignments so graciously! Please accept my warmest congratulations upon receiving this award.

Unfortunately, I must tell you and your students that I cannot come to EKV on November 2. In checking my calendar I found that I had promised to play the violin for Mr. Baar during the Choral Quad State performance that evening. I will try to suggest another date as soon as possible unless you have two dates you would like to submit to me.

Gratefully,

Irma H. Collins, Sponsor  
State SMENC
