Arthur Harvey, D.M.A.
531 Hahaione St. 19 C
Honolulu, HI. 96825

Dear Dr. Harvey,

Thank you for your wonderful presentation on Music Therapy. Every participant left the session more energized, happier, and amazed at the profound effect music can have on our brains and lives. I'm sure all of us will make it a point to listen to appropriate mood music on a more regular basis.

I received comments such as, "That was the most delightful training I have ever attended, and I've attended a lot of training sessions in my work career." "If you have to have passion for what you do, and it comes through in the presentation:" "That was a really enjoyable and informative training session." This was the general consensus.

Thank you for being a caring, sharing individual, and for all the community service work you do. Hawaii and the world appreciates your work. One of your former students who attended this session indicated that your course at UHM was great and a lot of fun, and that you were a very positive person. She never, ever heard a negative comment in your class all semester. What a great human being!!!
