

Note:

Dear Dr. Harvey:

I heard your wonderful presentation at the MHT conference at Seattle U. in July. You were outstanding! That was one of the most, if not the most, dynamic presentations I've seen. Wonderful!

I'm doing a recap of the seminar for a magazine (Townsend Letter for Doctors & Patients) and would love to get an idea from you of some references in the literature I could share with the readers. I've read the "music intelligence" one you list; is there anything else from your program that night I could mention?

Email is best. Please let me know.

Thank you!
