Dear Arthur:

Thank you for a wonderful Inservice on January 28. In eighteen years of planning Inservice for teachers, I don't think I've ever had more enthusiastic response. I do appreciate your coming on Sunday to insure that you would get here ahead of the storm.

I certainly feel that some one hundred of our teachers now have a much better feeling for not only why but how they can and should make music a part of their children's program.

Sincerely,

Hilda Mullen
